staytru
color technology

Novik® mastered the art of colors to become a leader in the industry. With state of the art equipment and expertise, our StayTru color technology guarantees a superior quality product. By using premium pigments, Novik® ensures an exceptional, durable and resistant color.

Novik® is the master producer of polymer composites

A DURABLE MATERIAL MADE TO HANDLE HARSH WEATHER

- Resists impact from foreign objects (ASTM D4226)
- Resists discoloration due to weathering (UV light from the sun) (ASTM D1435 and ASTM G147)
- Resists winds up to 160 MPH (240 km/h) (ASTM D5206)
- Respects certain burning characteristics (ASTM E-84, ASTM D1929, ASTM D635 and NFPA 268)
- Resists breaking and cracking due to extreme temperature variations. (-40°C to +80°C)
- Resists water, humidity and rot

BEAUTIFUL NATURAL LOOK

- Faithful reproduction of traditional materials: a procedure that perfectly reproduces the textures of wood, stone, brick by creating molds from those materials
- Authentic texture
- Seamless visual appearance
- Solid, blended and Stainnatural colors
- No color batches or lots
- Random patterns that won't look repetitive

EASY TO INSTALL

Take advantage of our Fast-Fit system that makes installation fast and easy.

- Light, flexible material that can be installed by one person
- No special tools are needed for installation
- No special storage required
- Nail locators on every panel
- "Hammer stopper" feature prevents nails from being pounded too far in
- Unique stack-on locking system aligns panels

EASY TO MAINTAIN

- No caulking
- No painting required

RELIABLE PRODUCTS

- Exterior siding and decorative accessories come with a limited lifetime warranty
- Novik® has the required documents for the LEED® Canada and can provide the necessary information for a project

NORMS:

- ICC-ES: International Building Code 2006 and 2009 (ESR-2888 and ESR-2889)
- Florida Building Code 2007
- CCMC (13420-R)- (Canadian Construction Materials Centre)
- Flame spread <200
